SIR THOMAS DEWAR TROPHY

Description of Trophy and Rules Governing the Cup. Now Held By
Lewis S. Ross.

The Board of Trustees in charge of the 1-mile International Automobile trophy, presented for competition by Sir Thomas Dewar, of London, England, met at the New York Press Club last week, and formally approved of the bond to be given for its safekeeping by Lewis S. Ross, of Newtonville, Mass., who was the first winner of the trophy on the Ormond-Daytona Beach last January. Mr. Ross won the cup in the time of 42 seconds, Arthur McDonald, of London, England, being second in the race which had 20 starters. The cup is presented for the 1-mile straightaway record race, and will be competed for at least twice annually if challenges are forthcoming.

Mr. Ross is a member of the Bay State Automobile Association of Boston, and the cup will be delivered to Mr. Ross in a few days and placed in the rooms of the above organization. The cup itself is probably the most unique, largest and costliest ever presented for competition. The cup was made by Dieges & Clust, of New York, after competition with several other leading trophy makers. The value of the cup is \$2,000.

The cup itself stands 36 inches and rests on an ebony base, making a total height of 48 inches. Around the base are laurel wreaths from which rise in graceful lines the cup and the three handles. At the top where the handles join the rim, each is ornamented with a pair of automobile wheels, from the axles of which are spread Mercury wings. Below the rim are a series of medallions, encircled in laurel wreaths. On each circle is enameled the coat of arms of several countries celebrated for progress in manufacturing and racing of automobiles. The cover is surmounted by a full length and draped figure of Victory holding aloft in her right hand a laurel wreath.

There are several inscriptions beautifully engraved on the cup, one of them being the crest of the family of Sir Thomas Dewar, the Scotch baronet, and automobile devotee and all round sportsman who donated the prize. The crest shows a gamecock and on a ribbon the motto, "Gloria Patria." Around the crest is inscribed, "The Sir Thomas Dewar International One-Mile Challenge Trophy." A racing automobile in characteristic racing action is engraved on another part of the cup. Convenient space on which to inscribe names of the winners of the cup from year to year, is also provided for.

While there is much to admire in the modeling and chasing of the cup, the six enameled medallions representing the United States, France, England, Germany, Belgium and

Switzerland stand out prominently, each coat of arms being executed in its proper colors.

In all, 300 ounces of silver was employed in the construction of the trophy, and the well-known Butler finish is employed in the work. Mr. Dieges, the designer, is a well known athlete, a member of the New York Athletic Club, and is nationally known as an expert timer of athletic sports, and his firm furnished the athletic trophies of the World's Fair.

Louis Ross, the winner, is well known as an automobile designer and driver, although his profession is that of an architect. He designed and built the steam car which won the trophy in Florida, and it was dubbed by Sir Thomas Dewar "The Tea-Kettle."

Following are the rules governing the cup, which have been approved by Sir Thomas Dewar, who intends to return to the United States next winter bringing with him a racing automobile and a fast motor boat in order to take part in the Florida automobile and boat tournaments.

Conditions to govern competitions for the Sir Thomas Dewar trophy:

1. The cup shall be known as the Sir Thomas Dewar International Trophy.

2. It shall be raced for at the Ormond-Daytona tournament, January, 1905, and annually, or at such shorter intervals as the trustees shall decide, thereafter, on the Ormond-Daytona Beach or some other suitable course.

3. The distance of each race shall be one mile, straightaway, with flying start.

4. The trophy shall be raced for at least once in each year.

5. The contest shall be open to any and all cars of weights within the International classification, regardless of power or country of manufacture.

6. The trustees shall have the right to reject any entry.

7. In the event that no tournament be promoted within one year of January 1905, and annually thereafter, acceptable to the trustees as one in which to submit the trophy for competition, the trustees shall give notice of their readiness to accept challenges and promote a contest. The race shall take place not less than ninety days nor more than six months after such announcement and the expense of conducting it shall be borne equally by the contestants.

The entry fee for each contest shall be \$50 which must accompany the entry, except that the holder of the trophy shall be exempt from the payment of the fee. The proceeds shall be devoted to such purposes as may be deemed proper by the Board of Trustees.

In case it shall be necessary for the trustees to promote any race, as provided in Section 6, they shall have the right to demand of the contestants a deposit of a sufficient

sum of money to guarantee the payment of the cost of such promotion.

10. If any race shall be run on a public highway, the trustee shall first obtain the consent of the proper authorities and shall make suitable provision for policing the course.

11. The trophy shall be delivered to the winner after each contest on the filing of a bond, acceptable to the trustees, for its safe return. The name of the winner in each case may be engraved upon the cup, or on its base, by order of the trustees, and in no other way.

12. The Board of Trustees shall consist of the President of the American Automobile Association; the President of the American Motor League; the General Manager of the National Association of Automobile Manufacturers, Inc.; the President of the New York Press Club; W. J. Morgan of the New York Motor Club; H. L. Bowden, of the Bay State Automobile Association; Angus Sinclair, of the Automobile Club of America, and N. J. Automobile and Motor Club, and Frederick Glassup, representing the donor of the trophy. Vacancies in the board shall be filled by the remaining members.

13. The Board of Trustees shall have power to decide all matters not specifically covered by these conditions.

WILL INTEREST MANY.

Every person should know that good health is impossible if the kidneys are deranged. Foley's Kidney Cure will cure kidney and bladder disease in any form, and will build up and strengthen these organs so they will perform their functions properly. No danger of Bright's disease or diabetes if Foley's Kidney Cure is taken in time. For sale by all druggists.

Oil in Florida.

That oil in paying quantities exists in Florida has been known for some time, and it would not require a very great stretch of imagination to see Florida among the great oil producing states. Oil has been discovered in various places throughout the state, the latest find being about thirty miles south of Brooksville. A special to the Times Union of Thursday, March 30, says:

"In boring for water at the new plant of the Aripeka sawmill, today, at Fivay, thirty miles south of here, on the Brooksville and Hudson Railroad, a fine grade of oil was struck at a depth of two hundred feet. The vein was so strong it had to be capped. Great excitement prevails. Fivay is the present terminal of the proposed railroad from Brooksville to Tampa.

NEW CURE FOR CANCER.

All surface cancers are now known to be curable, by Bucklen's Arnica Salve. Jas. Walters, of Duffield, Va., writes: "I had a cancer on my lip for years, that seemed incurable, till Bucklen's Arnica Salve healed it, and now it is perfectly well." Guaranteed cure for cuts and burns. 25c at all drug stores.
